

Natalia Vozhdaeva

Front-end Developer

St Johns, Auckland | +64 27 236 2339 | NataliaVVozhdaeva@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFILE

Developer with 2+ years of Frontend hands-on experience building responsive, accessible, production-ready interfaces with JavaScript, TypeScript, HTML5, CSS3/SCSS and React. Comfortable working from Figma designs to clean, maintainable code, with a strong focus on UI/UX, web accessibility and cross-browser compatibility.

I work closely with designers, developers and managers, give and receive code reviews, and enjoy turning complex problems into clean, performance user experiences. Eager to keep learning new frameworks and creative technologies, and to push the boundaries of the features I work on.

CORE SKILLS

Languages: JavaScript (ES6+, OOP, jQuery), TypeScript, HTML5, CSS3 (Flex, Grid, Animation, SCSS), PHP, Python.

Frameworks & libraries: React, Redux, Preact, Tailwind CSS, THREE.js, Bootstrap, Angular.

Web & tooling: REST APIs, Axios, Fetch API, AJAX, Vite, Webpack, Gulp, AMP.

Version control & workflow: Git (feature branches, pull requests, code reviews), Kanban.

Design & quality: Figma, Photoshop, responsive & cross-browser layouts, accessibility.

Communication: Written and spoken English.

EXPERIENCE

Front End Developer · Imaginasi Inc. (remote, Marshall Islands)

May 2024 – Present

Live products: restaurantguru.com · dineawardslondon.com · software.informer.com

- Build production-ready, responsive user interfaces with HTML5, CSS/SCSS (animations), JavaScript, TypeScript, React and Redux, meeting UI/UX, accessibility and browser-compatibility standards.
- Modernise legacy code by refactoring jQuery modules into reusable React/TypeScript components, reducing technical debt and improving maintainability and scalability.
- Deliver advanced interactive features, including map-based experiences powered by the Google Maps API.
- Implement AMP pages and front-end optimisations to boost SEO, page speed and mobile experience.
- Collaborate daily with engineers, designers and product managers — planning features, giving and receiving code reviews on Git, and shipping to deadlines across multiple simultaneous projects.

HTML / JS Developer · Win-Win Club (project work, Russia)

Jun 2023 – Aug 2023

Live product: winwinclub.pro

- Translated Figma designs and wireframes into clean, maintainable HTML, CSS, JavaScript and PHP, with adaptive, responsive and liquid layouts.
- Structured pages with reusable, modular components to improve maintainability and scalability across the site.
- Used PHP for dynamic rendering and server-side data integration; ensured cross-browser compatibility throughout.
- Worked both independently and as part of a small team to meet project deadlines.

Front End Developer · BIOM dev (project work, Montenegro)

Mar 2023 – Jun 2023

Live product: tokenopolis.biz

- Built user-friendly, accessible, responsive web interfaces for a crypto startup using HTML, Preact and Tailwind CSS.
- Designed and maintained reusable UI components, introducing a component-based architecture that increased scalability of the codebase.
- Created adaptive, liquid-layout components with full support for light and dark themes.

- Refactored and modularised a legacy component, improving maintainability and performance.
- Partnered with designers and developers to plan and implement intuitive UI solutions and resolve styling issues.

EARLIER CAREER (RUSSIA, 2010 – 2022)

Radio Journalist / Program Director and Web Editor across several media and public-sector organisations, including the All-Russian State Television and Radio Broadcasting Company (2016–2022). Throughout this period I maintained and updated website sections in HTML and CSS, supervised web design projects, and collaborated with developers on portal improvements and SEO — which is where my interest in front end development began. Full history available on [LinkedIn](#).

EDUCATION

Master of Information Technology (Software Development)

Feb 2026 – Present

Auckland Institute of Studies, New Zealand

Bachelor's Degree in Journalism

Sep 2005 – Jun 2010

Tomsk State University, Russia

CERTIFICATIONS & CONTINUOUS LEARNING

- Coursera – Information Technology and Cloud Fundamentals Specialization (IBM). Oct 2025 – Feb 2026
- University of Helsinki – open course “Programming” (Python). Aug 2025 – Oct 2025
- RSSchool – “JavaScript / Frontend / React”. Dec 2022 – Jan 2024
- HTML Academy – “JavaScript: Architecture of Front-end Applications”. Apr 2022 – Jul 2022
- Rubius Academy – “Frontend Development”. Feb 2021 – Apr 2021
- Tomsk State University of Control Systems and Radioelectronics – “Front-end Development”. Jan 2020 – Mar 2020

ABOUT ME

I like time with my family and our cat, crafting, hiking and intellectual quiz games. Practice sustainable living and waste sorting. Dream that all stray animals find their humans.
